| <b>Fact:</b>        | A wheel nut came off and went down the pit lane. No video from car 44's pit lane camera was available to the Stewards.                                                                                                                                                                                                                                                                                                                       |
| <b>Offence:</b>     | British GT Sporting and Technical Regulations 2026 19.6 - A Pit Area Camera must be obtained by all Competitors. It must be installed on the pit area in accordance with the specifications... It will be the responsibility of each Team to ensure that the camera is switched on during all sessions and races and must be working correctly at all times... Failure to provide the images or to deposit the card may result in a penalty. |

| <b>Fine:</b>        | £ 750 GBP                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Reason:</b>      | The Stewards heard from the team representative. The Stewards find that the team failed to provide images from the pit lane camera when requested. The Stewards deem the penalty appropriate because as well as there being no images there was an issue with a pit stop reported that the Stewards could not properly investigate due to the lack of images.                                                                                |
