2024 British GT Championship

Round 4 – Donington Park 3 Hour: 25 – 26 May 2024

Race Director Note 2

Championship Regulation 39.2

« Pit stop operations must be carried out in the pits/working area of the pit lane and parallel to the pit lane. »

In order to achieve the above, cars must enter their working area and park parallel to the working line.

If a car is unable to enter their box parallel, the safe use of skates is acceptable, the car may safely approach their box at an acute angle to the working line and skate the rear into the parallel position.

Cars must not enter at 45* as a standard method of working. No team members are allowed in the fast lane to relocate the car.

The safe release of cars to the fast lane may involve skating the car to an acute angle in order to clear any occupied pit box in front, all team members must be behind the white line prior to the release of the car to the fast lane.
